

Attention Texas Agents!

Effective Immediately

Given that the tropical storm (Hurricane Patricia) forming in the Pacific Coast is expected to hit the Texas coastline, we have suspended binding Comp/Coll on any new business or endorsements effective 12:01AM Saturday, October 24, 2015 until further notice.

We are allowing reinstates and renewals at this point but will also suspend these coverages once this hits and will require inspections on everything for an additional 48 hours after the storm subsides.

Most of the areas are saturated with rain and therefore the concerns are for additional flooding to occur.

Thank you for your continued business!
